

User Stories

- As a traveler, I want to know the location of the plane I am in while traveling so I can satisfy my curiosity.
- As a user who has loved ones travelling without me I want to know their location so that I can plan their pickup or know when they reach.
- As a travel planner, I want to know where my clients are located so that I can plan their stay and other forms of travel effectively.
- As a user who ships through air travel I would like to know the location of my plane to estimate when my goods will reach.
- As member of a budgetary committee I want to track the movements of employees on official travel so as to calculate the necessary reimbursement.
- As a hospital that gives out flying doctor services we need to know the location of our planes so as to reach emergencies easier.
- As a control tower operator, I would like to have a program where number of airplanes in the air can be evaluated so that my work can be easier.
- As an aviation safety investigator, I would like to know where a plane last was so that I can evaluate the cause of the accident.
- As a rescuer, I want to know the last location of an aero plane before it crashed so that rescue efforts can be made easier.
- As part of the border patrol I want to know the planes incoming and those leaving our borders to make identification of suspicious activities easier.
